FORM AUTHORIZATION
Application Programming Interface (API)

Please complete all the required fields marked with an asterisk (*) before you submit the form.

TYPE		SERVICE	

APPLICATION PROGRAMMING INTERFACE (API) - Is the Day & Ross Preferred Method of Exchange for Tendering

Description of services available for API – a link between your Transportation Management System (TMS) and our system.

1. **Create a Shipment:** Tender a load and get the Bill of Lading, labels, and pro number for shipments to be picked up by Day & Ross directly.
2. **Create a Quote:** Obtain a hard copy of your quote and your quote number.
3. **Get US or Domestic Rates:** Get rates with no quote number.
4. **Get Images:** Get image for shipments billing your account. (Bill of Lading, Proof of Delivery, and any other document we have scanned in).
5. **Track & Trace:** Track your shipments.
6. **Get Invoice History:** List of invoices for your account for a specific date range.
7. **Get Invoice Detail:** Get a copy of a specific invoice.
8. **Modify Shipment:** Modify details on a shipment prior to pickup, and get a new Bill of Lading & Labels.
9. **Cancel Shipment:** Cancel a shipment prior to pickup.

Comments		Date	

Notes
- All new setups will be for REST APIs (vs. SOAP) to go live in March 2026.
- Existing API registration process and authentication credentials remain the same.
- An Open Standard Authorization (OAuth) token process will be added as an extra layer of security.
- Connection endpoint at Day & Ross (URL, IP Address, Port details) will change.
