APPLICATION OF RATES

ITEM 1: COMBINATION RATES

Where published herein a through rate shall always take precedence over any combination rate. Except for rates to Labrador and Territorial points when not accessible by road due to ice conditions or winter road conditions.

Rates and charges will not apply as factors for constructing combination rates except those published as “Beyond Rates”. “Beyond Rates” may only be used in combination with a through point to point rate published herein or in combination with a special customer tariff, providing no through rate is available.

Exception: When the pick-up point and the transfer point (Basing Point) are the same only the Beyond rate will apply.

ITEM 2: BASING POINTS

Unless otherwise specified, any point based or associated with a Basing Point shall take the same rate application

as that Basing Point (see Index of Points, herein).

Example:

POINT	BASING POINT
Dieppe	Moncton

Rates and charges in all Day & Ross tariffs applying for Moncton will also apply for Dieppe.

NOTE 1: This application may not be used when rates are published specifically for a non-basing point, such as Dieppe. Therefore, that specific named point in a customer tariff will take precedence, regardless of whether Moncton is also published in that tariff.

NOTE 2: Rates beyond Corner Brook to Labrador points are seasonal rates only. During the winter when ferry is unable to run rates via air will apply where service available. Otherwise freight will not be accepted to Labrador unless serviceable over Quebec City.

NOTE 3: Rates to some Northwest; Nunavut & Yukon Territories & Labrador points are subject to change during winter & spring break up, due to ice roads being impassable and ferries unable to run. Air Service is available upon request.

ITEM 3: ACCESSORIAL CHARGES

Beyond rates as found in Section 3 are subject to accessorial charges applicable for the appropriate interline carrier costs. Interline accessorial costs when higher than outlined in this tariff will supersede accessorial charges outlined in this tariff.

The vehicle must be loaded by the Shipper.

The complete loading service includes the loading of the freight into or on the Carrier's vehicle and the stowing and arranging thereof. Any temporary blocking, flooring or lining, standards, strips, stakes or similar bracing, dunnage or supports not constituting a shipping carrier, container or package, or a part of the vehicle when required to protect and make shipments secure for transportation must be furnished and installed by the shipper.

2. CONSIGNEE TO UNLOAD

The Carrier employee and power unit is to be released while loading and/or unloading, but will render no assistance in loading or unloading.

On mixed shipments when any portion of the freight is required to be loaded or unloaded by shipper, or consignee, as the case may be, as a condition precedent to the application of the rate, the entire shipment must be loaded or unloaded by the shipper or consignee, otherwise the rate will not apply and rates otherwise published will be assessed.

In the event the shipment is stopped-off for partial loading or partial unloading, the party or parties tendering or receiving any portion of the shipment will be subject to the requirements as to loading or unloading, as the case may be.

If for any reason, the consignor or any party tendering any portion of the shipment refuses to perform the loading or the consignee, or any party receiving any portion of the shipment refuses to perform the unloading, the rate will not apply and rates otherwise published will be assessed.

ITEM 2: Carrier's records must be maintained and kept available at all times and must show:

- a) The Name and Address of the party requesting the service.

MECHANICAL LOADING AND UNLOADING – RULE NO.125

Where the size, shape or weight of a shipment, or any part thereof, requires mechanical loading and/or unloading at customers' premises, or special pickup or delivery equipment, such equipment may be furnished by the Shipper or Consignee. Where such equipment is not furnished by the Shipper or Consignee and is supplied or arranged for by the Carrier, any charge incurred by the Carrier shall be added to all other applicable tariff charges against the shipment or any part thereof, together with a service charge as shown below.

1. Where flag persons are required to accompany any oversize or overweight shipment because of any Federal, Provincial, Municipal or other Law or Regulation, or in the opinion of the Carrier as a safety requirement, a charge of \$26.00 per hour per person shall be made in addition to all other rates and charges herein.
