1. When rates in tariffs published by DAYR or NMFC ratings are subject to a released valuation being stated on the bill of lading and the shipper fails or declines to indicate an acceptable valuation on the bill of lading at the time of shipment, the shipment will be considered as being released to the lowest valuation provided and the shipment will be transported and charged for subject to such limitation of such liability. This part applies only when released valuation is required in order to determine a rate and does not apply when the shipper has the option to release or not to release a shipment as to value.
2. When rates in tariffs published by DAYR or NMFC ratings are subject to, or are determined by, the density of the articles shipped and the shipper fails to indicate the density on the bill of lading at the time of shipment, the shipment will be charged for on the basis of the class or rate applicable on the lowest density provided. Upon receipt of satisfactory proof of a higher actual density, the freight charges will be adjusted to those applicable to such actual density.

(See NOTES C and D)

NOTE A: However transmitted, the notice will specify the point of origin, consignor, commodity description and shipment weight.

NOTE B: When transmitted by mail, the notice will be deemed to have been received at 8:00 a.m. the first business day after it was mailed.

1. Shipments moving under Order Notify Bills of Lading will be tendered for delivery promptly upon arrival at destination or terminal point. Tender of delivery will be considered as delivery for the purpose of applying this rule. If a shipment moving under an Order Notify Bill of Lading is tendered for delivery to consignee at billed destination and the consignee or party entitled to receive the shipment is unable to present the necessary Bill of Lading, the shipment will be treated as refused or unclaimed freight and will be handled in accordance with the rule and charges provided for in ITEM 830 (Redelivery).
2. Order Notify shipments will be subject to a charge of **\$77.49** per shipment, which charge will be in addition to all other lawful transportation charges.
3. The charges for handling Order Notify shipments will be collected from the party paying all other lawful transportation charges.

ITEM 363 – BILLS OF LADING – DESCRIPTION

On shipments where the description of the articles provided on the bill of lading is a mischaracterization, wrong or incomplete, or the bill of lading otherwise fails, in any way, to comply with applicable federal, state, provincial, local or international laws, rules, or regulations pertaining to shipments, the shipper and customer shall be jointly and severally liable for, and shall indemnify, defend and hold the Carrier and its employees, contractors, and agents harmless from and against any and all claims, liabilities, losses, damages, fines, penalties, payments, costs, and expenses (including, without limitation, reasonable legal fees) caused by such deficiency. ITEM 365 – BILLS OF LADING – CORRECTED

1. Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after the shipment has been delivered.
2. A corrected bill of lading to change the original freight charges collection status from prepaid to collect will not be accepted if Section 7 (The non-recourse clause) of the corrected bill of lading has been signed by the consignor.
3. A request to change the original freight charges collection status from collect to prepaid will require a corrected bill of lading from the shipper and the shipper must have established credit with DAYR. An additional charge of **\$57.44** per freight bill changed will be assessed against the party responsible for payment of the freight charges on the corrected bill of lading.
4. Redelivery, storage or other charges that become applicable on shipments that have been refused due to the freight charges collection status will be assessed against the party responsible for payment of the freight charges on the corrected bill of lading.

ITEM 366 – MISSING OR INCOMPLETE REGULATORY DOCUMENTS

In the event a shipment is tendered to the carrier without the applicable and required regulatory documents, including but not limited to a properly completed Commercial Invoice, associated permits and declarations, and any other documentations required by the customs broker and customs authority, the carrier will apply a \$75 administrative fee.

ITEM 370 – BLIND SHIPMENTS

(Note A)

Upon written instructions received by the carrier prior to receipt of shipment at point of origin, accompanied by a thorough Bill of Lading covering the shipment, the carrier will accept the shipment when tendered by the party in possession of the shipment, subject to the following conditions:

1. Prior to notification to carrier for pickup of blind shipment, customer must contact carriers rate department to obtain a Quote Number. This quote will include total freight charges based on information given by customer, including the applicable charge of **\$78.65** for the blind shipment.
2. After receipt of the Quote Number, the customer will then give all blind shipment information to the carrier's dispatcher, who in turn will complete the Blind Shipment Form. Both the Blind Shipment Form and the original Bill of Lading received at the pickup point will be submitted to the billing clerk with the same pro number. The Quote Number must be written on the Blind Shipment Form.
3. Blind shipments must move prepaid, unless the party paying for the blind shipment charge is also paying the freight charges collect.
4. Carrier will have no responsibility or liability for incorrect billing or delivery of the blind shipment if customer fails to obtain a Quote Number prior to the freight being received by the carrier.

NOTE A: Definition of Blind Shipment: When a 3rd party paying the freight charges requests the carrier to ship the freight to a different consignee indicated on the Bill of Lading AND/OR requests that the carrier change shipper's name on the Bill of Lading, at the time of pickup. A charge of **\$78.65** applies for this service. A blind shipment can require changing just the shipper name or consignee information or both. All shipments must show originating city and state of pickup point. This cannot be changed under any circumstances.

ITEM 381 – CANCELLATION OF ITEMS

As this tariff is supplemented, numbered items with letter suffixes cancel, except as otherwise specifically indicated, correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A.

Example: Item 445-A cancels Item 445, and Item 365-B cancels Item 365-A, in a prior supplement, which in turn cancelled Item 365. (If Item 365 had not been cancelled, for some reason, Item 365-B would cancel it as well). If the new item provides a specific cancellation of a prior issue or issues, this rule is not applicable.

ITEM 390 – CAPACITY LOAD - MINIMUM CHARGE

2. The terms LOADED TO CAPACITY or CAPACITY LOAD refer to the extent to which a pup(s) is loaded with freight, each term meaning:
 - (a) That quantity of freight which, because of unusual shape or dimensions or because of necessity for segregation from other freight, requires the entire capacity of a pup(s); or
 - (b) That quantity of freight which, in the manner loaded, utilizes a linear length of 20 feet or more in the pup(s) and either of the following conditions apply:
 1. Linear width of the freight is equal to or is greater than 5 feet in the pup(s), or

(See Note A)

NOTE A: At those marine terminal facilities where Federal Maritime Commission detention charges apply, carrier charges pursuant to this rule will be assessed on the party responsible for the payment of the freight charges to the extent such charges exceed those of the Federal Maritime Commission.

e) When carrier's employee assists in loading, unloading, or checking the freight, this item will apply whether or not the power unit is actually detained.

f) Nothing in this item shall require a carrier to pickup or deliver freight at hours other than carrier's normal business hours. This shall not be construed to restrict a carrier's ability to accept pickup and delivery schedules at hours other than its normal business hours.

b) "Loading" includes furnishing carrier with the Bill of Lading, forwarding directions or other documents necessary for forwarding the shipment.

Upon such notification, the responsible representative of consignor, consignee or other designated party may enter the time of arrival onto the carrier's detention record. If the representative refuses to enter the time, then carrier's employee will enter the time and it will be binding upon each party.

2) Time shall end upon completion of loading or unloading except as provided for in Paragraph (c) of this section. Upon such completion, a responsible representative of consignor, consignee or other designated party may enter the time of completion onto the carrier's detention record. If the representative refuses to enter the time, then carrier's employee will enter the time and it will be binding.

b) Prearranged scheduling:

1) Upon reasonable request of consignor, consignee or others designated by them, carrier will, without additional charge, enter into a prearranged schedule for arrival of the vehicle for loading or unloading.

2) When the carrier enters into a prearranged schedule with consignor, consignee or others designated by them for the arrival of the vehicle for loading or unloading and carrier is unable for any reason to maintain such schedule, then carrier and consignor, consignee or other party designated by them have the option to agree to a mutually convenient and prompt alternative arrival time or in the event such agreement cannot be reached, to compute detention time against consignor, consignee or other party designated by them from carrier's actual arrival time subject to an extension of 15 minutes, or fraction thereof, the vehicle is delayed beyond the originally scheduled arrival time; in no case shall such extended free time exceed 60 minutes.

3) If carrier's vehicle arrives prior to scheduled time, time shall begin to run from the scheduled time or actual time loading or unloading commences, whichever is earlier.

c) Conditions governing the computation of time:

- 1) Computations of time are subject to and are to be made within the normal business hours at the designated place of pickup or delivery. If carrier is permitted to work beyond this period, such working time shall also be included.

 - (I) to request that the vehicle without power remain at its premises subject to the provisions of Sec. 4 (d); or
 - (II) to request that the vehicle with power be returned to carrier without being subject to charges for storage or redelivery so long as free time has not yet expired. When the vehicle is returned for completion of loading or unloading, the computation of any remaining free time will resume. If free time has expired and detention has begun to accrue, storage or redelivery charges as may otherwise be provided will be assessed.
- 3) When carrier's employee interrupts loading or unloading by the taking of any normal non-working periods, any such time will be excluded from the computation of time in excess of free time.

- 4) When a Debtor consignor or Debtor bill to tenders or Debtor consignee receives more than one LTL shipment at one time, the combined weight of that Debtor will be used to determine free time. The free time will be increased by 5 minutes for each shipment subject to maximum of 60 minutes additional free time

Charges of that Debtor will be pro-rated on the basis of the weight of each individual shipment for that Debtor. Where single or multiple LTL shipments subject to LTL rates exceed the carrying capacity of one vehicle, free time for each vehicle shall be computed separately.

Sec. 4. - Free Time

a) Free time shall be computed as follows:

- 1) If the change is requested and made before the expiration of free time for a vehicle with power, free time will cease immediately at the time the request is made, and detention charges for vehicles without power will immediately commence with no further free time allowed.

The pallet must be an integral part of the cargo and must remain with the cargo when it is moved either as an export or an import shipment. Any palletization performed on the pier does not qualify for the pre-palletized rate. In order to qualify for the pre-palletized rate, the minimum weight or measurement of the pallet and cargo shall be either 1,000 lbs. or 64 cubic feet, and the maximum weight shall be 10,000 lbs. Bales or bundles, skidded machinery, iron, steel and other unfinished metals and glassware are not included in this definition. Cargo in excess of 10,000 lbs. shall be billed at the heavy lift charges.

NOTE C: Skidded or unitized cargo as used herein means that cargo which is secured by straps or wire to bearers constructed of wood, metal or other material which are at least 4 inches in height.

NOTE D: The handling of heavy lifts in excess of 10,000 lbs. for any single package shall be subject to completion of the necessary arrangements with terminal operator and shall be limited to the capacity of the terminal operator's equipment at the location. The tariff rates set forth herein for other than heavy lifts are applicable to single packages weighing 10,000 lbs. or less.

NOTE E: Partial Loading or Unloading (Tailgate):

Partial loading or unloading commonly called "tailgate" loading or unloading shall be defined as that loading or unloading which enables the pier operator, through the use of a forklift truck and operator only to place or remove, cargo onto or from the tailgate of a truck. Tailgate loading shall also be defined as such when, through the use of the pier operator's platform or by removal of stakes or standards of flatbed equipment, the forklift operator is able to place the cargo either at a point of rest on the truck or in a position for further handling by personnel of the motor carrier.

All other loading and/or unloading that requires more equipment and/or personnel than one forklift truck and operator per package or pallet shall be considered full loading or unloading.

The choice of partial or full loading and/or unloading shall be left to the discretion of the motor carrier, shipper or consignee, provided the service requested comes within the provisions of this definition. (These provisions shall not be construed as compelling the terminal operator to provide pallets.)

NOTE F:

- (a) **Truck Loading:** Truck Loading shall mean the service of moving cargo from a place of rest on the pier which is readily accessible to the truck, elevating the cargo onto the truck and stowing of the cargo in the truck, but shall not include special stowage, sorting or grading of, or otherwise selecting the cargo for the convenience of the trucker or the consignee. The service shall include loading on consignee's pallets.

The loading and stowing of cargo in the truck shall be under the supervision of the driver of the truck.

- (b) **Truck Unloading:** Truck Unloading shall mean the service of removing cargo from the body of the truck to a place of rest designated by the terminal operator, and shall include sorting by port. The unloading of cargo from a truck shall be under the supervision of the driver of the truck.

NOTE G: Not applicable on shipments picked up at or delivered to piers or wharves located at the Philadelphia Outport at Pier 84, Philadelphia, PA.

ITEM 556 – DELIVERIES TO TRADE SHOWS/EXHIBITIONS

1. Shipments of CLOTHING, on hangers, in boxes, as described in NMFC Item 49880 Sub 1, will be rated at Class 150.
2. Exceptions to NMFC Class ratings herein, or in tariffs governed by this tariff will still be subject to other provisions and requirements of the NMFC.

ITEM 560 – EXTRA LABOR-LOADING OR UNLOADING, including Lumper (aka Swamper Fee)

1. When requested by the consignor or consignee, extra labor will be furnished by the carrier for loading or unloading. At each location where extra labor is used, the charge per man will be as follows: **\$123.20** per person for each hour or fraction thereof, subject to a minimum charge of **\$495.20**.
2. Time shall be computed from the time the extra labor departs from a carriers service center through its return to the service center, excluding any time servicing other customers.
3. Carrier's records must reflect the following information for each vehicle containing shipments on which extra labor is used:
 - (a) Name and address of consignor or consignee at whose place of business freight is loaded or unloaded.
 - (b) Identification of vehicle tendered for loading or unloading.
 - (c) Number of extra men used and applicable time used per Paragraph 2 above.
4. All charges herein will be assessed against the payor of the freight charges.
5. If charges for pickup or delivery on shipments picked-up or delivered on Saturdays, Sundays or Holidays are applicable, such charges will be assessed in lieu of the charges in this item. (See Item 754) Note A: In the event a delivery requires the carrier use and pay a Lumper (aka Swamper) Service the Fee charged by the Lumper Service shall be prorated against all delivered shipments on the trailer based on individual shipment subject to a minimum of **\$53.56** per shipment.

ITEM 562 – EXTREME LENGTH (aka OVER DIMENSION)

When a shipment contains any shipping unit or piece with a dimension exceeding 8 feet in length the additional charge will be as noted in the table below:

This item will not apply on shipments subject to EXCLUSIVE USE, CAPACITY LOAD or CUBIC CAPACITY AND DENSITY rules, or to TL or volume rates and charges.

| Carrier Name | Range (inches) | Per Shipment |
|--------------|----------------|--------------|
| Day & Ross | 96.1-143 | \$ 225.00 |
| | 144-191 | \$ 395.00 |
| | 192-239 | \$ 600.00 |
| | 240-287 | \$ 1000.00 |
| | 288-99999 | \$ 2000.00 |

- (1) Fractions of less than 1/2 or .5, omit.
- (2) Fractions of 1/2 or .5 or greater, increase to next whole number.

ITEM 566 – INSIDE PICKUP OR DELIVERY

Applicable when the carrier is requested to perform a delivery (or pickup) at an area not located at the established receiving or shipping area, and not reasonably adjacent to the truck. The carrier shall assess a charge of **\$17.29/CWT** subject to a minimum charge of **\$171.70** per shipment and a maximum charge of **\$1716.77** per shipment. All charges will be assessed to the payor of the freight charges. This Item is further defined and clarified by the Notes listed below:

1. Standard delivery is defined as delivery to a receiving area for the consignee reasonably and practically adjacent to the truck. Delivery shall ensure the goods are placed to an area out of the elements preventing damage from weather or theft. Any request to deliver the shipment to another storage area beyond the standard or established receiving area (or beyond the area immediate to inside the front door when a store front type delivery) shall result in the application of this Inside Delivery charge.
2. Deliveries to Retail Malls shall constitute an Inside Delivery if the carrier is required to park at a common receiving dock and wheel the shipment by hand through the hallways of the Mall to the respective store. If a given store has a dedicated receiving dock, or the carrier can reasonably and practically park in front of the store (ie store front delivery), then the provisions of Note #1 above will guide.
3. If the delivery is to another floor (other than the ground floor level) the provisions of this Inside Delivery Item 566 will apply providing , provided that the carrier has access to an elevator that can accommodate the carriers standard freight handling tools (hand truck etc) and there is no charge to the carrier for use of the elevator. In the event that the delivery to another floor is not supported by an elevator or does not accommodate the carriers standard freight handling tools, the carrier may apply Extra Labor charges as found in Item 560 in lieu of the of the Inside

Delivery charges found in this Item 566. Deliveries of this nature will be specifically reviewed and approved by the payor of the freight charges before the service is performed.

4. The carrier will have no liabilities or responsibilities for damages or injury to persons or property resulting from Inside Delivery services performed by the carrier. The Consignor or Consignee requesting the carrier perform the Inside Delivery service shall indemnify, protect, save and hold harmless the carrier from any claims, liabilities, losses, damages, cost and expenses, of any kind imposed upon, incurred by or asserted against the carrier, arising from, connected with or resulting from the Inside Delivery services performed.
5. Consignor or consignee requesting that carrier perform Inside Delivery services will indemnify, protect, save and hold carrier harmless from any claims, liabilities, losses, damages, cost and expenses of any kind, imposed upon, incurred by or asserted against carrier, arising from, connected with or resulting from the Inside Delivery services.

ITEM 570 – IMPRACTICABLE OPERATIONS

Pick-up or delivery service will not be performed by the carrier at any site from or to which it is impracticable to operate vehicles because of:

1. The condition of roads, streets, driveways, alleys or approaches thereto;
2. Inadequate loading or unloading facilities;
3. Riots, acts of God, the public enemy, the authority of law, strike by consignor's or consignee's employees, the existence of violence, or such possible disturbances as tending to create reasonable apprehension of danger to person or property.
4. Ferries.

ITEM 576 – LITIGATION OF DELIQUENT BILLS

Failure to make payment of freight charges for services performed as a common carrier which subsequently results in legal action taken against the debtor, will be subject to the following:

1. Forfeiture of all discounts, allowances, commodity rates, brokerage agreements, incentives or any other rate reductions enjoyed by such debtor, if any, on all unpaid freight bills.
2. In addition to above, debtor will be responsible for attorney fees and/or court costs associated with or as a result of suit.

PAYMENT OF CHARGES

1. Allowances, discounts, exception classes and commodity rates shall apply only when tariff charges are paid within a maximum period of forty-two (42) calendar days from invoice date.
2. The provisions of this rule do not change in any way the carrier's obligation to collect nor the freight charge payor's obligation to pay tariff charges within the standard credit period maintained by the carrier in compliance with 49 CFR 1320. This rule simply establishes a condition precedent for the application of the special tariff provisions described in Paragraph 1.

ITEM 578 – LOADING BY CONSIGNOR-UNLOADING BY CONSIGNEE

1. In lieu of pickup or delivery service as provided in Item 750 and when convenient for customer and carrier, customer may load/unload carrier's trailers, under the following conditions:
 - A. SHIPPER LOAD** – When prearranged with carrier's local operations, carrier will spot or drop trailer at the shipper's loading facility so the shipper may load the trailers at its convenience. Any discrepancy on those shipments tendered under the Shipper Load and Count arrangement will be handled in the following manner:

1. At pick-up, carrier will include "SL&C" on the bill of lading, indicating that the shipper counted and loaded the shipment without carrier's driver present. The shipper will properly block and brace the freight. Carrier's failure to note "SL&C" on the bill of lading will not affect the liabilities of the parties, if the shipper has in fact performed the counting and loading without a representative from carrier present.
2. Carrier will provide seals for security purposes to the shipper when requested. Failure to seal a load will not affect the terms and conditions outlined in Item 578.
3. Carrier will notify the shipper's representative by auto-fax of any exceptions within 24 hours of first unloading. This will not include weekends or holidays. Carrier cannot be liable for uncountable palletized orders, picked up and delivered with wrap intact.
4. Shortage claims filed will be thoroughly investigated. Carrier will work with the shipper to use overage, as mutually agreeable, to offset their liability on valid claims.
5. Shortages will be reported as above. The shipper will advise carrier disposition of any merchandise that could or should be applied to a valid shortage. In the event of a shipper caused shortage, the shipper will allow carrier to adjust the Bill of Lading accordingly to reflect actual piece count and weight.
6. Carrier will accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of the concealed nature. In this respect, any claim following will be settled based on the findings of the investigation.
7. Carrier can be responsible for handling units only as applicable and to the extent that a piece count can be verified. Individual item numbers and P.O. shortages at delivery shall not be deemed as shortages against Carrier when the handling unit count matches the amount properly reported as received on the SL&C trailer.
8. Carrier will not decline liability of claims just because the bill of lading is noted "SL&C". The burden is carrier's to either provide a clear proof of delivery, a properly reported exception or payment of the claim. The shipper agrees not to file claims when discrepancies have been properly reported.

B. CONSIGNEE UNLOAD – Carrier will drop or spot trailers at the consignee's facility so the receiver may unload the trailers. Any discrepancy on those shipments tendered, as CONSIGNEE UNLOAD will be handled in the following manner unless a separate agreement is already established and signed in place:

1. Carrier agrees to spot or drop trailers at Consignee's place of business for the purpose of Consignee to complete the unloading process within normal free time or otherwise agreed to in writing.
2. Consignee will not utilize carrier's equipment for any use other than the express purpose of unloading.
3. When the Consignee fails to report to carrier's local service center that equipment is empty and available to carrier for removal, it will be subject to detention rules and charges.
4. Consignee will accept liability for any and all damages occurring to carrier's equipment, or for the loss of carrier's equipment, while in its physical possession, other than normal wear and tear or an Act of God. Consignee will promptly reimburse carrier for the cost of repairing or replacing such equipment.
5. Carrier will note CONSIGNEE UNLOAD on the delivery receipt, indicating that the consignee unloaded and counted the shipments without carrier's driver present. Carrier's failure to note CONSIGNEE UNLOAD on the delivery receipts will not affect the liabilities of the parties, if the consignee has in fact performed the counting and unloading without a representative from carrier present.
6. Carrier will provide sealed trailers with the carrier's seal number documented for security purposes. Failure to seal a load will not affect the terms and conditions outlined in this item.
7. Delivery receipts will be signed by the consignee at the time the trailer is dropped for unloading, or if not operationally feasible, will be available to carrier no more than 24 hours after delivery.

- a. The consignee agrees to notify carrier by fax on a mutually approved form of any exceptions within 24 hours of the trailer being dropped. This will not include weekends or holidays. Carrier shall not be liable for exceptions reported after 24 hours of trailer being dropped.
- b. Notice of any exception is to be faxed on the mutually approved form to the attention of the local service center's OS&D associate.
- 8. Carrier shall not be liable for uncountable palletized orders, picked up and delivered with shrink wrap intact or for Shipper Load and Count orders that have been properly reported to the shipper at first unloading.
- 9. Carrier shall only be responsible for handling units as signed for and tendered by shipper. Individual item numbers and purchase order shortages shall not be deemed shortages against Carrier when the handling unit count matches the amount signed for at time of Pickup, or as applicable, properly reported as received on a Shipper Load and Count trailer.
- 10. Shipments tendered to the Consignee to be unloaded at their convenience are to be secured by the Consignee in a manner to prevent theft. Carrier will not be held responsible for stolen product while in the possession of the Consignee.
- 11. Carrier agrees not to decline liability of claims just because the delivery receipt is noted CONSIGNEE UNLOAD. The burden is carrier's to provide a clear proof of delivery when the documents are returned to the carrier. It is the consignee's responsibility to provide a properly reported discrepancy with dated fax confirmation for payment of the claim. The consignee agrees not to file claims when discrepancies have not been properly reported.
- 12. The Consignee will accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of the concealed nature reported within 15 days of the trailer being spotted for unloading. In this respect, any claim following will be settled based on the findings of the investigation.

ITEM 580 – MARKING OR TAGGING FREIGHT

(Exception to NMFC Item 580)

1. Except as otherwise provided for in this item, when shipments are released to a carrier with instructions to prepare a Bill of Lading, or where Bill of Lading is prepared by the owner of the goods and supplied to the carrier, the carrier will tag the freight to conform with NMFC Item 580, subject to charges shown in Paragraph 6.

IMPORT FREIGHT MOVING INBOND (See NOTE A)

2. Import shipments of LTL or AQ freight, when forwarded Inbond, which upon delivery to the carrier at the Port of Entry, bear blind or abbreviated markings, shall be marked with red label or tag of the U.S. Government to show the following information, which will be considered in full compliance with NMFC Item 580.

Transportation Entry No. _____
 (Station)
 From _____
 (Destination)
 To: _____

NOTICE - This package is under bond, and must be delivered intact to the Chief Officer of the United States Customs at _____

- 3. Shipments marked in accordance with Paragraph 2 will be subject to a charge of **\$7.02** per label or tag, minimum charge per shipment **\$70.85** when prepared and/or applied by the carrier.
- 4. Any additional marking required by the shipper, if performed by the carrier, will be charged for the same rate as provided in Paragraph 6.

FREIGHT NOT MOVING INBOND

5. On Import, Coastwise or Intercoastal traffic and on shipments received at steamship piers, which upon delivery to carrier or its agent at the Ports of Entry, bear blind or abbreviated markings, will, if necessary for proper identification, after completion of Customs formalities, be marked in conformity with NMFC Item 580. When marking is done by an employee of the carrier or other party acting as agent for the carrier, the charge for such marking will be provided in Paragraph 6, which charge unless paid to the carrier or its agent, as above, at the Port of Entry, will follow as an advance charge against the shipment.

CHARGES

(Applies only to the extent authorized in Paragraphs 1, 4 or 5 above)

6. a) Where the owner of the goods supplies the carrier with prepared labels or tags to be affixed to individual packages or pieces of freight, a **\$6.96** per label or tag, minimum charge per shipment of **\$70.82** will be assessed for affixing to packages or pieces.

b) Where the carrier is not supplied with prepared labels or tags to be affixed to individual packages or pieces of freight, carriers will mark, label or tag the freight, and assess a charge of **\$7.04** per package or piece so marked, labeled or tagged, minimum charge per shipment of **\$70.87**.

NOTE A: The marking or labeling charge will not be applicable when the vehicles are loaded to visible capacity and sealed with a red in-bound customs seal.

ITEM 595 – MAXIMUM CHARGE-ALTERNATION OF LTL OR AQ RATES

When the charges computed on the higher rate at actual weight exceeds the charge computed on the lower rate at a greater minimum weight, the latter charge will apply.

ITEM 596 – MAXIMUM WEIGHTS-TL OR VOL

Except as specifically provided in individual items, TL or VOL provisions subject to a maximum weight restriction will apply only to the extent total weight of the shipment does not exceed maximum weight. That portion of shipment in excess of a stated maximum weight shall be rated as a separate shipment.

ITEM 598 – MAXIMUM LIABILITY--CIGARETTES AND/OR TOBACCO PRODUCTS

When on shipments of Cigarettes and/or Tobacco Products, the Maximum Liability will be **\$2.00** per pound on loss or damage, which will be computed only on the actual weight of the portion that is lost or damaged.

ITEM 610 – MINIMUM CHARGE--HOUSEHOLD GOODS OR PERSONAL EFFECTS

1. The minimum charge for a shipment will apply as follows:

- A. The applicable rate for each article multiplied by the actual weight of the articles but not less than the minimum charge shown in Class Rates and Charges, from origin to destination. Charges will not be reduced below the applicable minimum charge after discount or absolute minimum charge, whichever produces the higher charge.
- B. The minimum charge for an LTL shipment of Household Goods or Personal Effects as described in NMFC items 100200 and 100262 will be 500 pounds at the applicable rate.
- C. For the minimum charge for CAPACITY LOAD see Item 390 herein.
- D. For the minimum charge for CONTROL AND EXCLUSIVE USE see Item 470 herein.

ITEM 610-1 – MINIMUM CHARGE FOR LOW DENSITY--CUBIC CAPACITY AND DENSITY

1. When all or part of a shipment tendered to the carrier is classified as being a LOW DENSITY, CUBIC CAPACITY AND DENSITY shipment, the minimum charge for the quantity of freight loaded per trailer/doubles will be as follows:

- (a) Shipments with an average density of less than 4 lbs per cubic foot that require at least 350 cubic feet but less than 750 cubic feet of trailer space will be subject to a minimum charge as follows: Multiply the cubic feet of trailer space by 6 pounds per cubic feet to determine a “calculated” weight for the shipment, then to this “calculated” weight apply class 125 rates with applicable discounts and base rates. Class 125 will be used to rate the shipment regardless of any FAK levels in applicable Pricing Agreements.
 - (b) Shipments with an average density of less than 6 lbs per cubic foot that require 750 cubic feet or more of trailer space will be subject to a minimum charge as follows. Carrier will multiply the total cubic feet of the shipment by 6 pounds to determine a “calculated” weight, then multiply the calculated weight by Class 125 rates with the applicable discounts and base rates. If a customer does not have a discount on file, a **25%** discount will be used to determine the final charge on shipments to R&L Carriers, Inc, Customer or account specific FAK class exceptions less than class 125, will not apply. No other discount, reduction or allowance will apply.
 - (c) Overflow freight will be charged as a separate shipment and so rated.
2. The term CLASSIFIED AS A LOW DENSITY SHIPMENT refers to any shipment of at least 350 cubic feet but less than 750 cubic feet and has an average density less than four pounds per cubic foot. CUBIC CAPACITY AND DENSITY SHIPMENT refers to any shipment which is greater than 750 cubic feet and has an average density of less than four pounds per cubic foot.
 3. Average density is based on the total cubic feet of each packaged/handling unit of the shipment. If due to the nature of the packaged/handling units or per instructions from the shipper/consignee, carrier is unable to load freight on top of the packaged/handling units or cannot double stack like kinds of packaged/handling units, a minimum height measurement of 84 inches will be used when determining the cubic footage of the packaged/handling units. Unitized shipments exceeding 14 line feet, or shipments of non-unitized freight that are loaded in such a manner that determining the total cube of each packaged/handling unit is impractical, or shipments tendered in such a manner that they cannot be transferred, will have the cube calculated on the linear dimensions of the entire shipment.
 4. When, during one calendar day, two or more shipments are received from one consignor, at one origin address, destined to one or more consignees at the same destination delivery address, that combined will be greater than 750 cubic feet and has an average density of less than four pounds per cubic foot, the shipment will be combined as one shipment on one bill of lading, and will be subject to this item.
 5. This Item will not apply on shipments subject to EXCLUSIVE USE or CAPACITY LOAD rules, or to TL or Volume rates and charges.
 6. The Cubic Capacity & Density rule will not apply when the actual class of freight less the applicable discount is greater than the result of this rule.

ITEM 640 – MIXED PACKAGES--LTL OR AQ

(Exception to Section 3 of NMFC Item 640)

The charge for a package or packages containing freight of more than one class shall be at the rate provided for each individual article in the package.

1. Bill of lading and shipping order must specify each of the separately classified or rated articles by class rating group and the total weight of each such separately classified or rated articles.
2. When the billed weight is higher than the actual weight, the resulting deficit weight will be charged for at the rate applicable to the lowest classed article contained in the mixed packages comprising the shipment.
- 3.1 If a single shipment containing commodities classed separately within the NMFC regardless if separately itemized on the Bill of Lading (BOL), is inspected; and if the inspection determines that the information provided on the BOL does not accurately describe all commodities shipped, the carrier may utilize the class corresponding to the actual density as shown in Table 1. Actual density will be based on the total shipment weight and total shipment cube. See note A and B.
- 3.2 If a single shipment containing commodities classed the same or with identical density parameters within the NMFC but tendered with different classes itemized on the Bill of Lading (BOL), is inspected; the carrier may utilize the class corresponding to the actual density as shown in Table

1. Actual density will be based on the total shipment weight and total shipment cube. See note A and B.

- a) Dimensioning machinery may be used for the verification of overall shipment density.
- b) D&R Rules Item 490 – Density – Method of Determining may be utilized for any density calculation

Table 1:

|--------|-----------------------|------|
| Sub 1 | Less than 1 | 400 |
| Sub 2 | 1 but less than 2 | 300 |
| Sub 3 | 2 but less than 4 | 250 |
| Sub 4 | 4 but less than 6 | 175 |
| Sub 5 | 6 but less than 8 | 125 |

| Sub 7 | 10 but less than 12 | 92.5 |
| Sub 8 | 12 but less than 15 | 85 |
| Sub 9 | 15 but less than 22.5 | 70 |
| Sub 10 | 22.5 but less than 30 | 65 |
| Sub 11 | 30 or greater | 60 |

ITEM 641 – MIXED SHIPMENTS-LTL OR AQ

On a mixed LTL shipment or AQ shipment consisting of 2 or more commodities subject to different rates, the charge for each commodity shall be the respective LTL or AQ rates applicable to the aggregate weight of the shipment on the actual weight of each commodity. Any deficit in weight will be charged at the rate applicable to the lowest rated of such commodities.

ITEM 645 – MIXED SHIPMENTS--VOLUME OR TRUCKLOAD

(See NOTE A)

(Exception to NMFC Item 645)

SECTION 1: Unless otherwise provided, a number of articles, for which the same or different Vol or TL rates, classes, ratings or minimum weights are provided, constituting a mixed Vol or mixed TL shipment, will be charged at the actual or authorized estimated weight and at the straight Vol or TL class rate (NMFC or Exceptions), commodity rate or column commodity rate (not "Specific Mixture", "All Freight", "Freight, All Kinds" or "All Commodity" rates or ratings) applicable to each article except as provided in NMFC Item 310 and Item 640 herein, and at the highest straight Vol or TL minimum weight that would be applicable to any articles in the shipment if that quantity of each article in the mixed shipment is tendered as a straight Vol or straight TL shipment. Any deficit in the minimum weight will be charged for at the lowest Vol or TL rate applicable to any article in the mixed Vol or TL shipment.

SECTION 2: Subject to the provisions of Sec. 1, when the aggregate charge on the entire shipment is made lower by considering the articles as if they were divided into two or more separate Vol or TL shipments, the shipment will be charged for accordingly.

SECTION 3: Subject to the provisions of Sec. 1, when the aggregate charge on the entire shipment is less on the basis of the Vol or TL rate and Vol or TL minimum weight (or actual or authorized estimated weight if in excess of the Vol or TL minimum weight) for one or more of the articles, and on the basis of

the LTL rate (See NOTE C) or rates on the actual or authorized estimated weight for the other article or articles, the shipment will be charged for accordingly. On articles included in Vol or TL shipments on which LTL rates are applied, Vol or TL package requirements will apply, and if so packed or prepared for shipment, will not be subject to increased charges provided in Section 3(a) of NMFC Item 687 (See NOTE D).

SECTION 4: Shipments subject to Vol or TL rates or ratings, applying on "Specific Mixtures", "All Freight", "Freight All Kinds", "All Commodity" or similarly designated rates or ratings will be charged for on the basis of the Vol or TL rate and its accompanying minimum weight or actual weight when greater. If an article or articles not provided for in the mixture is included in a shipment, such article or articles will be charged for as a separate LTL or Vol or TL shipment, whichever produces the lowest charge (See NOTE C). The weight of such articles not included in the mixture may not be used to make up the truckload minimum weight. On articles included in Vol or TL shipments on which LTL rates are applied, Vol or TL package requirements will apply, and if so packed or prepared for shipment, will not be subject to increase charges provided in Sec. 3(a) of NMFC Item 687.

SECTION 5: If a lower charge results under the application of Sections 1, 2 or 3, than under the provisions for a specific Vol or TL mixture, such lower charge will apply.

SECTION 6: Where different Vol or TL rates and minimum weight are provided on the same article included in a mixed Vol or mixed TL shipment, the lowest charges that can be computed by the use of any such rate and its accompanying minimum weight for that article shall be used in the determination of the charges for the entire shipment.

SECTION 7: On mixed Vol or TL shipments of commodities subject to "Excess" rates or ratings (See NOTE B) each commodity shall be considered separately and "Excess" rates or ratings (See NOTE B), will apply only when the basis minimum weight is met on each commodity. (Two or more commodities subject to the same rates or ratings and minimum weights are to be treated as one commodity in applying the excess class rate or rating).

NOTE A: The provisions of this rule will also apply on shipments accorded stop-off in transit privileges in accordance with the provisions of the tariff making reference hereto, or provisions authorized herein.

NOTE B: Excess rates or ratings are those rates or ratings specifically published to apply on the amount of the shipment loaded in the same vehicle which exceeds the stated VMW.

NOTE C: The LTL rate to apply will be rate applicable on the weight of the article or articles being charged for on the basis of the LTL rate or rates considering such portion as a separate shipment for rating purposes subject to a minimum charge if applicable.

NOTE D: The weight of the portion of the shipment assessed LTL rates shall not be used in computing the applicable Vol or TL minimum weight.

A. Apply 100 percent of the otherwise applicable class rates and/or minimum charge less applicable discounts, if any, as published in tariffs subject to this item.

B. Carrier's maximum liability shall not exceed 50 cents per pound on used or reconditioned articles. When consignor declares an actual or released value exceeding 50 cents per pound for used or reconditioned articles on the original bill of lading carrier liability shall be specifically limited to 50 cents per pound and provisions of Item 2 below shall be considered as not applicable.

2. If the declared, actual or released value exceeds \$25.00 U.S. per pound, the carrier's maximum liability shall be limited to \$25.00 U.S. per pound per package or \$100,000 U.S. per incident, whichever is lower, for shipments from U.S. to Canada. Carrier shall not be liable for any loss or damage to a shipment or for any delay caused by an act of God, the public enemy, the authority of law, the inherent vice of the goods, or the act or default of Shipper. The burden to prove freedom from negligence is on the Carrier or the party in possession.

A. When the NMFC offers the consignor the option to declare an actual, declared or released value on the Bill of Lading, and such valuation is NOT declared by the consignor and the shipment is inadvertently accepted by carrier, the provisions referencing the lowest actual, declared or released valuation will apply and carrier's liability shall not exceed that valuation.

B. Corrected bills of lading or letters of authority to add or change the valuation will not be accepted.

C. On shipments originating in the U.S. and destined to the Republic of Mexico, the U.S. carrier will be liable for the —full, actual value of the commodities (subject to the provisions in Paragraph 2), until such time as the shipment is delivered to the U.S. broker.

E. There will be no carrier provided cargo liability coverage for shipments moving between the Mexico origin/destination(s), and the U.S. broker.

F. Movement of property as part of a continuous movement which has been or will be transported by an air carrier or a foreign air carrier is subject to a maximum liability of **\$.62** per pound per piece.

4. Carrier's liability for loss or damage to any article(s) or part thereof for which the charges are determined by FAK (Freight of All Kinds) class or Exception class is limited to the (1) actual cost of the goods lost, damaged or destroyed; (2) limited liability provisions of the Bill of lading, or carrier limits of liability as listed in item 2 above; (3) applicable limited liability provisions of the NMFC; or (4) lowest Released Value shown in the NMFC for the commodity shipped, or \$100,000 per incident per Shipper if from the US (\$100,000 per incident if to the US from Canada), whichever is less, subject to the maximums by exception class as shown below:

The shipper and the customer acknowledge that the carrier or its agents may at any time inspect a shipment or any part thereof, at its sole discretion, if the carrier reasonably believes that the description of the articles / shipment provided on the bill of lading is a mischaracterization of the content of a shipment, that the shipment contains illegal or mis-declared articles, or that a shipment presents a risk or danger to the safety of its personnel, equipment or facilities.

1. The Carrier or Carrier's agent shall have the right to take any action necessary to determine if the information on the bill of lading is correct while in the custody of the carrier or carrier's agent, including but not limited to:

(b) Collection of other sufficient evidence necessary to verify if the weight of shipment is correctly declared on the Bill of Lading.

2. When information is found to be incorrect on the Bill of Lading, the freight bill will be corrected and freight charges assessed according to the proper weight. If the pallet contains mixed commodities, the corrected weight will be charged at the classification of the lowest commodity shipped. Corrected weights will only affect density based commodity classifications on shipments with handling unit dimensions that were documented by the carrier thru physical inspections or by Dimensioning Machinery.

3. When the reweigh of a shipment results in an increase to freight charges of a least **\$13.60**, a **\$29.97 reweigh fee** per shipment, or per vehicle if more than one vehicle is used to transport the shipment, will apply. When the information is found to be incorrect, the bill of lading and carrier freight bill will be corrected and freight charges assessed according to the proper descriptions and weights, except when mixed commodities are palletized by the Shipper, the increased weight will be charged at the highest rated commodity in the shipment. Deficit weight, if any, will be charged per NMF 100 series.
 3. Density will be determined by the cube utilized as determined by the methods contained in Item 110, Section 8 of the National Motor Freight Classification (NMF 100) Series and the weight shown on the shipper's bill of lading, unless the carrier determined the weight on the bill of lading to be in error or the shipper provides documentation that the weight was in error.

SECTION 3:

Any temporary blocking, flooring or lining, racks, standards, strips, stakes or similar bracing, dunnage or supports not constituting a shipping carrier container or package or a part of the vehicle when required to protect or make shipments subject to other than LTL or AQ classes or rates secure for transportation, must be furnished and installed by the shipper, except that upon request of shipper such materials will be furnished or installed by the carrier subject to the following provisions:

1. When materials are furnished by the carrier, the cost thereof will be paid by the shipper upon presentation of an invoice from a supplier independent of the carrier covering such materials used on the involved shipment.
