

RESTRICTED & PROHIBITED ITEMS

Domestic
Shipments

Not all shipments are created equal. It's important to know which goods require special approval before we pick them up and which items we don't ship at all.

As the shipper, it's your responsibility to ensure your shipment complies with regulatory standards and Day & Ross requirements.

Used Goods

Certain articles and commodities, such as household goods, personal effects or other used goods have a higher risk of damage as they travel through a typical freight distribution network. It's industry practice for these items to be treated as "At Shipper's Risk" (your own risk) as they require special handling and are not appropriate for a general freight environment.

Restricted Items

Restricted items require approvals from our Operations, Safety & Compliance, Legal, or Risk Management teams. If your shipment contains any of the **Restricted Items** listed below, contact us before you request a quote or create a shipment.

- Alcohol (beer, spirits, wine)
- Animals/Fish
- Antiques
- Artwork (paintings, sculptures, statues, etc.)
- Fuel
- Batteries
- Garage/Overhead doors
- Glass (Sheets)
- Over-dimensional shipments
- Granite/Marble
- Increased Shipment Valuation*. Special approvals are required beyond \$2/lb.
- Live plants in LTL quantity requiring temperature control service
- Negotiable instruments
- Used goods (including household goods & personal effects)
- Pianos
- Trade show shipments
- Used batteries
- Tobacco

*Contact your sales representative for more information

Prohibited Items

Day & Ross **does not ship** any of the **Prohibited Items** listed here.

- Personal vehicles e.g. cars, watercrafts, motorcycles etc. (excludes B2B shipments)
- Carbon black
- Coins or currency
- Collections (stamps, money, cards, etc.)
- Hazardous waste
- Human remains/bodies/body parts/ashes
- All cannabis products (including cannabis plants, seeds or bulk, unprocessed raw materials)
- Excessive weight (i.e. shipments cannot exceed the capacity of the equipment available to handle the shipment)

Dangerous Goods

- Class 1, 2, 3, 4, 5, 8, 9 – **No Restrictions**
- Dangerous Goods Class 6.2 - **Prohibited**
- Placardable Radioactive Materials Class 7 – **Prohibited** except products that meet TDG regulation 1.17 and do not require placards (e.g. smoke detectors, survey equipment, and medical equipment)
